CITIZENS SHOCKED AS THE LEGENDARY IAN OF IANS IS SIGHTED IN TYNGSBOROUGH, MASS

A man named GFHKTHUJDS was outside in his lawn when he noticed that the sky was an eerie infrared color.

Alerting his neighbors quickly, GFHKTHUJDS ran out of his lawn and into the road. Shortly after, the sky stopped existing entirely, and the IAN OF IANS descended upon Earth.

IAN OF IANS proceeded to lie down on GFHKTHUJDS's hammock and sleep for a bit, and then continued to wreak havok

on the town.

According to trusted sources on Ianism, Ian of Ians began by sitting "on a planet-like pedestal in the center, and laughed manically in front of humanity for 13,700,002,003 years. In the year 2003, it was discovered that Ian of Ian's pedestal was really the Earth. Soon after, humanity was able to escape from their chains and create the Something. The Something cancelled out the Nothing and forced Ian of Ians to stop existing.

Desperately, Ian of Ians retreated to his Something form and appeared on Earth shortly after in a humanoid body. He was now simply called "Ian". For thirteen years Ian has attempted to destroy the Something and all of its subsets, including the Earth and humanity, by

creating things that are completely illogical."

Now, it seems like Ian of Ians is back on Earth, and looking for revenge for humanity's "wrongdoings."

What is there to be done to stop this maniacal fanatic that is Ian? Mr. Kfdskjkghd of Tyngsborough, Massachusetts, may have an answer.

"We must make new science," said Kfdskjkghd as he threw his fist onto the conference room table. "It doesn't matter if it is real or fake science, but it *has* to be logical! This is the only way to stop the legendary Ian of Ians."

The Iun will continue to follow this world-changing historic moment, live on Neef.co broadcasting.
